Report On Road safety awareness programe

Report:

Road safety is a safety measure to reduce the risk of road accidents and road side injury because of the mistakes of people while driving on the road. We cannot count the daily road side accidents and death of people because of the driving mistakes and lack of road traffic rules followers. Every person going on the road has risk of injury or death.

Everyone needs to be well aware of the road traffic rules especially children and young people who are at significant road accident risks. It is found that most of the hospitalization cases and leading cause of death are because of the road trauma. Road safety is very necessary while being on the road and must know by all because road accidents are the leading cause of death. Everyone should learn the road traffic and safety rules at a very early age to perform safer behaviours in the later life.

Every year India loses more than 1.4 lakh people due to road-crashes with more than 60% of them being in the age-group 15-34 years as per Indian Central Govt. As of 2018- WHO Global Status Report on Road Safety, Road crashes are the leading cause of death among the youth (5-29 years of age) in the world with India being the table-topper across

the globe with more than 3 lakh road crash fatalities. Indian Road Safety Campaign, Solve in India works with a vision to make Indian roads safer via youth-led community driven multi- sectoral initiative.

As we all are well aware that road accidents, injury and death has been very common now-a-days. People not following the road traffic rules and road safety measures are the main cause of such accidents on the roads. We always hear in the news or by our friends about the road accidents because of the wrong side driving, lack of road safety rules, measures, high speed, drunk driving, etc. Government has made variety of road traffic and road safety rules for everyone using road for their safety and reducing the number of daily road accidents.

Road safety risks have been increased because of the driver distraction due to the use of cell-phone or other electronic devices while driving. Lack of knowledge and awareness regarding road traffic rules and regulations, violation of traffic rules, flaws in road design and engineering, along with driver behaviour, can be overcome with concerted effort. Road safety measures are the tools can save from the expensive traffic fines, serious offences, removal of driving licenses, etc. Pedestrians also know the rules of walking on the road like proper use of crosswalks, use of zebra crossing, etc.

BRIEF REPORT OF THE ACTIVITY:

The auspicious occasion was presided by the Principal Dr. S. D. Barhate and the staff. The students of final year B.Pharm. exuberantly participated in the event. The entire programme was hosted by students of final year B.Pharm. The programme commenced with the welcome address by Pranav Patil P, followed by bhajan which was a befitting tribute to the extraordinary soul, the yugpurush, who was an epitome of peace and compassion. Moving a step ahead in helping the students understand what Mahatma Gandhi stood for- the very ideology and concept of non-violence, truth, honesty and love for humanity, was brought to the fore through the role play, 'Mohan to Mahatma' by the students of final year B.Pharm. The students paid their homage to Bapu through a dance performance depicting the simple life filled with integrity. Further, the students presented their view on 'The ideology of Gandhian Philosophy and its relevance among today's youth.' The principal Dr. S. D. Barhate shared few insights of the 'Mahatma', in which he urged the students to imbibe the values and ideals of Gandhi and his thoughts on the importance of Gandhian Philosophy in the present-day world resonated in the auditorium.

The programme concluded with the vote of thanks by Komal Patil. On the occasion of Gandhi Jayanti, the great deeds of Bapu were remembered and the audience was left with a sense of pride.
