1. This electronically generated score card is the official result declared by NTA and does not require any signatures.

2. The NTA Score indicates the percentage of candidates that have scored EQUAL TO OR BELOW (same or lower raw marks) candidates. The NTA scores of a Candidate have been calculated as follows:  
**100 X Number of candidates appeared in the examination with raw marks EQUAL TO OR LESS than the candidate.**

Important Instructions

- A National Merit Ranking (All India Rank) has been arrived based on the Marks secured against Total Marks.
- Students having same Score shall be listed in a chronological (ascending) order as per their date of birth.
- Candidates having same scores would be given the same Merit, and the Merit number would be increased by the same number i.e. if there are two candidates at Merit 2, Merit 3 would not be awarded to the next candidate but Merit 4 would be given.
- The admission authorities are advised to use score awarded to the students for allotment of seat in the AICTE approved programs, along with the other criteria that may exist, as applicable.
- Candidate's particulars including Category and Person with benchmark Disability(PwBD) have been indicated as mentioned by the candidate in the online application form.
- Instances of incorrect information provided by the candidates, if detected at any stage, would make the candidate liable for disqualification.
- The responsibility of verifying the category of the candidate for ascertaining eligibility of admission and award of scholarship lies with the admitting institute.

**BRIEF REPORT OF THE ACTIVITY:**

Shivaji Jayanti, which is the birth anniversary of Shivaji Maharaj, is held on February 19. Shivaji Jayanti is a Maharashtrian festival commemorating Shivaji Maharaj's birth. On this day, the state observes a public holiday. The day is usually commemorated with zeal and pride.

Like every year, this year Shiva Jayanti was celebrated in our colleges on a large scale at 19 February. The principal of the college Dr. S. D. Barhate and Teaching and non-teaching staff, some students were present on the occasion. After students gave speeches about Shivaji Maharaj, the students followed Shivaji Maharaj and then Maha Aarti was performed. After that, the volunteers distributed breakfast at the end.

**Report On Road safety awareness programe**

**Report:**  
Road safety is a safety measure to reduce the risk of road accidents and road side injury because of the mistakes of people while driving on the road. We cannot count the daily road side accidents and death of people because of the driving mistakes and lack of road traffic rules followers. Every person going on the road has risk of injury or death.

Everyone needs to be well aware of the road traffic rules especially children and young people who are at significant road accident risks. It is found that most of the hospitalization cases and leading cause of death are because of the road trauma. Road safety is very necessary while being on the road and must know by all because road accidents are the leading cause of death. Everyone should learn the road traffic and safety rules at a very early age to perform safer behaviours in the later life.

Every year India loses more than 1.4 lakh people due to road-crashes with more than 60% of them being in the age-group 15-34 years as per Indian Central Govt. As of 2018- WHO Global Status Report on Road Safety, Road crashes are the leading cause of death among the young (5-29 years of age) in the world with India being the table-topper across

the globe with more than 3 lakh road crash fatalities. Indian Road Safety Campaign. Solve in India works with a vision to make Indian roads safer via youth-led community driven multi- sectoral initiative.

As we all are well aware that road accidents, injury and death has been very common now-a-days. People not following the road traffic rules and road safety measures are the main cause of such accidents on the roads. We always hear in the news or by our friends about the road accidents because of the wrong side driving, lack of road safety rules, measures, high speed, drunk driving, etc. Government has made variety of road traffic and road safety rules for everyone using road for their safety and reducing the number of daily road accidents.

Road safety risks have been increased because of the driver distraction due to the use of cell-phone or other electronic devices while driving. Lack of knowledge and awareness regarding road traffic rules and regulations, violation of traffic rules, flaws in road design and engineering, along with driver behaviour, can be overcome with concerted effort. Road safety measures are the tools can save from the expensive traffic fines, serious offences, removal of driving licenses, etc. Pedestrians also know the rules of walking on the road like proper use of crosswalks, use of zebra crossing, etc.
